

OneChronos UK & EU MTF Subscriber Onboarding & Assessment Declaration

June 2026

OneChronos intends to operate a Multilateral Trading Facility (MTF) authorised and regulated by the Financial Conduct Authority (FCA) in the United Kingdom ("OCX UK") and by the Autoriteit Financiële Markten (AFM) in the European Union ("OCX EU").

In accordance with Commission Delegated Regulation (EU) of 14 July 2016 (supplementing Directive 2014/65/EU on markets in financial instruments with regulatory technical standards for trading venues, commonly referred to as "RTS 7"), Directive 2014/65/EU (MiFID II), and Regulation (EU) No 596/2014 on market abuse (MAR), we are required to assess whether your firm is suitable to become a Subscriber to the OneChronos MTF.

This onboarding and assessment process ensures that your firm:

1. Maintains appropriate pre-set trading and credit thresholds
2. Monitors trading activity effectively and can detect or prevent erroneous or disorderly trading
3. Implements robust risk controls to address potential regulatory risks, market abuse (including MAR compliance), or other violations of OneChronos Rulebook requirements
4. Meets all Know-Your-Customer (KYC) and due diligence obligations, where applicable
5. Understands its ongoing duty to notify OneChronos in advance of any material changes to its systems, controls, or procedures that could affect trading activities

Completion of this form is mandatory for the subscriber onboarding and due diligence process. If approved, your firm may be asked to submit an updated version of this questionnaire on an annual basis. Should your firm make material changes to its systems or control frameworks (as referenced in this form), you must inform OneChronos in advance of those changes taking effect.

OneChronos defines the Eligibility Criteria to become a Subscriber in the OneChronos MTF Rulebook(s) hereinafter collectively referred to as 'the Rules'. Subscribers must be either an investment firm or credit institution authorised by a regulator (within the meaning of Article 2 1.(1) of MiFIR) and Article 2 1.(1A) of UK MiFIR.

By completing this form, you confirm that all information provided is true and accurate to the best of your knowledge. Failure to provide complete and accurate responses may delay the onboarding process and, without prejudice to other rights, could result in the termination of any existing subscription.

Note: Non-trading Subscribers are not required to complete this form. One form is required per legal entity.

Subscriber Set up							
Self-Match prevention <i>Note: Order-level SMP always overrides the port-level SMP setting. If Tag 2362 is present on an order, its value takes precedence over any SMP mode configured at the session/port</i>	Self-Match Prevention Required? Yes - If Yes, SMP Method (choose one): 0 = Subscriber-level - Prevents matching against any other order from the same Subscriber. 1 = OnBehalfOfCompID - Prevents matching against orders using the same Tag 115 value. 2 = SenderCompID - Prevents matching within the same FIX session. No - Please explain: If No - By default, self-matched trades will not be reported to the relevant CCP. If self-matched trades should be reported to the relevant CCP, please tick this box						
Cancel on Disconnect	<input type="checkbox"/> Yes – Cancel all active orders upon FIX/network disconnect (except those already in auction). <input type="checkbox"/> No						
Locked Market Order Execution setting	By default, orders will be executed in a locked market (where EBBO bid = ask). Would you like to opt out of executing orders under these conditions? <input type="checkbox"/> Yes – opt out of locked market executions <input type="checkbox"/> No – orders to execute in a locked market (default behaviour)						
Maximum Order Risk Limits (Per Currency) ¹	<table border="1"> <thead> <tr> <th>Currency</th> <th>Max Notional Value</th> <th>Max Shares</th> </tr> </thead> <tbody> <tr> <td>USD</td> <td></td> <td></td> </tr> </tbody> </table>	Currency	Max Notional Value	Max Shares	USD		
	Currency	Max Notional Value	Max Shares				
USD							

¹ Max notional value default \$200 million; may be set **lower** per Subscriber (specified in USD and converted by OCX) calculated as order price x number of shares.

Max Shares default 100,000,000; may be set **lower** per Subscriber.

23	Please confirm the current due diligence arrangements for prospective DEA clients	<i>Explanation:</i>
24	Please confirm that you carry out an annual due diligence assessment of your underlying clients as required under RTS 6 (Article 23)	<input type="checkbox"/> Yes – annual assessment is carried out <input type="checkbox"/> No – annual assessment is not carried out. <i>Explanation:</i>
25	Please confirm that you have a pre-trade control framework and associated thresholds in place for DEA clients	<input type="checkbox"/> Yes – pre-trade control framework in place <input type="checkbox"/> No – pre-trade control framework not in place. <i>Explanation:</i>
26	Please confirm that you have a kill switch in place for DEA clients	<input type="checkbox"/> Yes – kill switch in place <input type="checkbox"/> No – kill switch not in place. <i>Explanation:</i>

D. Marketing Communications Consent

OCX (OneChronos Markets UK Limited and/or OneChronos Markets NL B.V.) may send marketing and informational communications to individuals at your organisation. These communications may include general information about OCX's MTFs in the UK and Europe, descriptions of trading mechanisms, product updates, and other relevant information about OCX's business activities both within the European region and globally. These communications will not include personal recommendations or investment advice (under Directive 2014/65/EU (MiFID II), Commission Delegated Regulation (EU) 2017/565, or the UK MiFID framework).

By completing this onboarding form, the Subscriber confirms that it authorises OCX to send such communications to relevant employees and representatives of the Subscriber who may have an interest in OCX's services. This consent is provided on behalf of the Subscriber and its personnel for the purposes of applicable data protection laws (including the UK GDPR and EU GDPR).

Each individual recipient may opt out of receiving marketing communications at any time by contacting: compliance_europe@onechronos.com

OCX will maintain a record of all individuals who choose to opt out and will ensure no further marketing communications are sent to them.

Confirmation

By ticking this box, the Subscriber confirms that it understands and agrees to the Marketing Communications Consent set out above.

E. Submission Details and Contact Information

Declaration

By signing this questionnaire, you agree to adhere to the requirements published in the Rules, and that new staff to the Subscriber who access the OCX UK and/or OCX EU trading venues, or have compliance, surveillance and/or perform other regulatory functions are provided access to the Rules. By completing this form, you confirm that all information provided is **true and accurate to the best of your knowledge**. Failure to provide complete and accurate responses may delay the onboarding process and, without prejudice to other rights, could result in the termination of any existing subscription.
